

RADON in New Jersey & the United States

- Put together a powerpoint presentation which provides the reader (Mrs. Longo and I) an accurate picture of this indoor pollution. You will E-Mail the finished product to BOTH of us. You must answer the following at a minimum:
 - 1) **What** is Radon?
 - 2) **Where** does it come from?
 - 3) **How** does it get into our homes, schools and office buildings?
 - 4) **What** does it cause?
 - 5) **How** many cases per year are attributed to radon?
 - 6) **Where** in New Jersey is the highest risk of a radon related disease? (a map would be nice)
 - 7) **Where** in the USA is the risk the greatest? (a map would be nice)
 - 8) **Who** should be concerned? (i.e. the sick, the young, the old or ...)
 - 9) **What** should you do?

- Pair up or work alone.
- Points will be awarded as follows:
 - i. 2 points per question (18 total)
 - ii. 3 points for accuracy and display
 - iii. 2 points each for maps.

- Total 25 quiz points.
