Flier Project

You are to make an informational flier to distribute among neighbors in your town. It should be mostly pictures few words.

It is on the three main environmental problems we face: pollution, resource depletion or loss of biodiversity.

Pick one from the jar

Pollution Fliers should contain:

Define pollution (1pt)

3 examples of different types of pollution (3pts)

Identify 3 biodegradable and 3 nondegradable pollutants (3 pts)

3 ways we can limit/stop pollution (3 pts)   total 10 pts

Resource Depletion Fliers should contain:

Define resource depletion (1pt)

renewable/non-renewable resources a definition and examples 3 examples of each) (3pts)

3 examples of depleted resources (3pts),

how they became depleted (1.5pts)

how we can stop the depletion (1.5pts)   total 10 pts

Loss of Biodiversity Fliers should contain:

Define biodiversity (1 pt)

Identify 3 endangered organisms and 3 extinct organisms (3pts)

Identify 3 periods of mass extinction (3pts)

3 ways we can limit/stop loss of biodiversity (3pts)   total 10 pts
